

DuPuis Management Area Equestrian Campsite and Trails

Gate 3, which is about one-half mile west of Gate 2, is the equestrian entrance. The DuPuis Horseman's Association, a citizen support organization, has helped develop and maintain a system of horseback riding trails in cooperation with the water management district.

At Gate 3, equestrian users will find a barn and primitive camping facilities which include a shower, restrooms, stalls and paddocks. Horseback riders will enjoy the 40 miles of equestrian trails which go deep into the "old Florida." Riders have the choice of four loops ranging from 7.2 to 17.5 miles.

Equestrians must carry proof of a negative Coggins test. Camping reservations are not needed. The site is filled on a first-come, first-served basis. There is no fee for camping.
